

Sample standards written for this training. Swap in your state's standards when you build your own notebook.

GRADE 3 SCIENCE • PLANT LIFE CYCLES

Sample Standards

Six sample standards: four for science and two for reading informational text.

Standards for this unit

Code	Sample standard	Where it shows up
SCI.3.LS.1	Life cycles Draw and explain a labeled model showing that a flowering plant starts as a seed, grows, makes flowers and seeds, and dies, and that new seeds start the cycle again.	Lessons 1, 7, and 8. Final task: draw and label a life cycle.
SCI.3.LS.2	What seeds and plants need Plan and carry out a fair test to find out what a seed needs to begin growing and what a young plant needs to keep growing. Change only one thing at a time.	Lessons 3 and 4. The four-cup test and the mid-unit check.
SCI.3.LS.3	Plant parts and pollination Describe how roots, stems, leaves, flowers, and fruits help a plant survive and make new plants, including how animals such as bees carry pollen between flowers.	Lessons 2, 5, 6, and 7.
SCI.3.PR.1	Observe and record over time Make careful observations over several days. Record them with labeled drawings, words, and simple measurements, and use the records to answer a question.	Lessons 2 to 5. The daily observation log.
ELA.3.RI.1	Answer with the text Answer questions about an informational text and point to the exact sentence or detail that supports each answer.	Lessons 1 and 7. Questions on "From Seed to Seed."
ELA.3.RI.4	Science words in context Work out the meaning of science words in a grade 3 text by using bold words, context clues, and pictures.	Lessons 1 and 7, and the unit vocabulary list.

How to read a code

- **SCI** is science. **ELA** is English language arts.
- **3** is the grade.
- **LS** is life science. **PR** is a science practice. **RI** is reading informational text.
- The last number tells them apart.

Using your own standards

Replace this page with your state's standards. Keep the codes exactly as your state writes them, so your notebook can match each lesson to the right standard.
